App Development With Flutter & AI

Batch:16

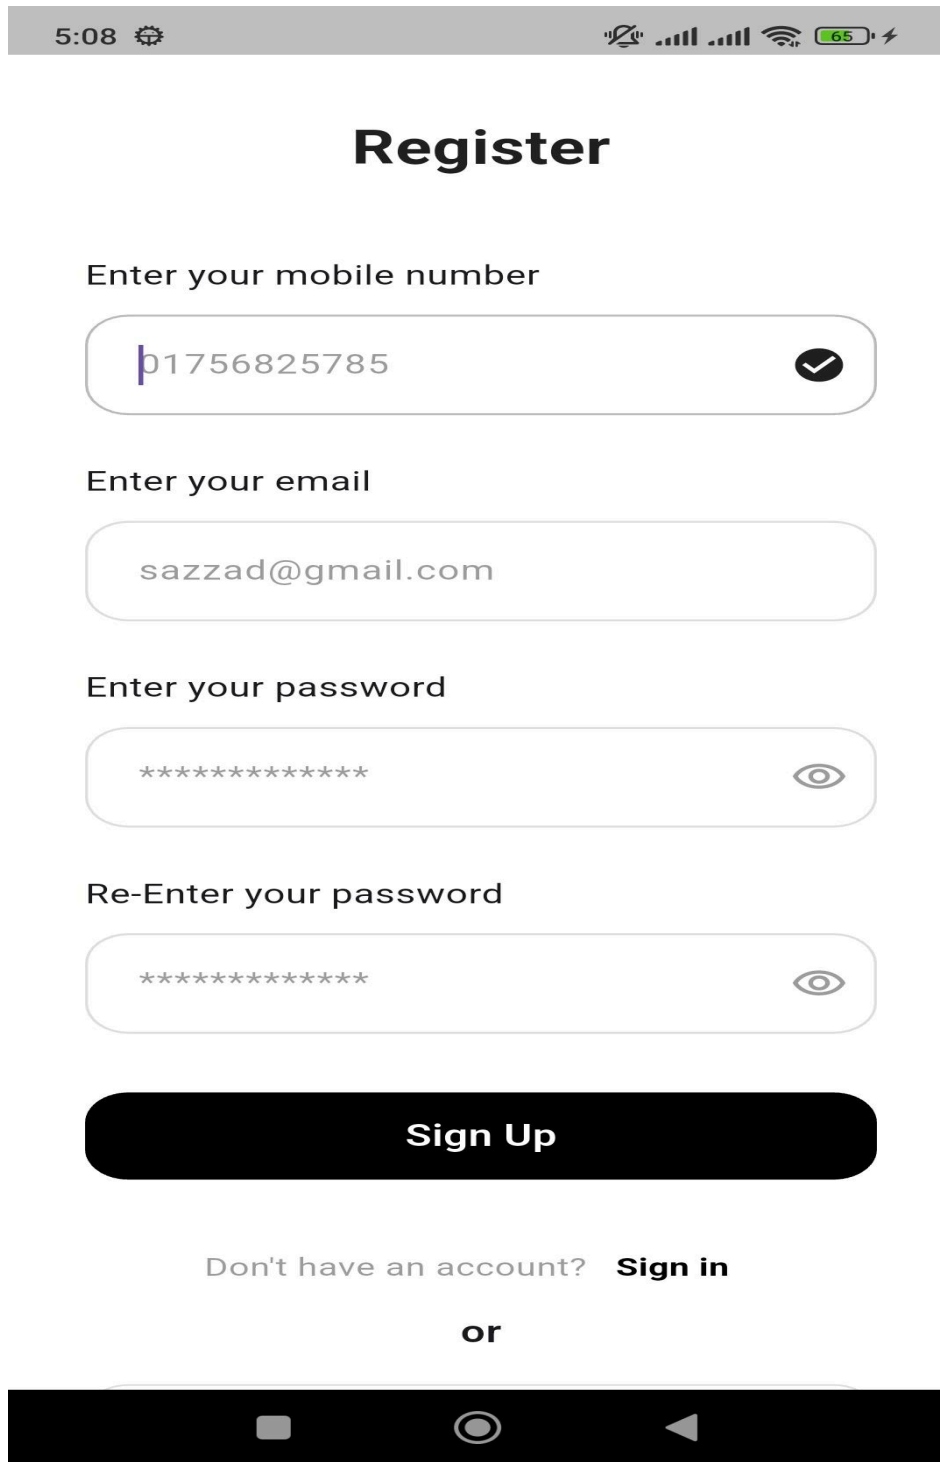

Assignment : Assignment on module 12

Submitted by:

Sheikh sazzaduzzaman

Source Code on Github : <https://github.com/ssheikhs/flutter-register-screen-ui>

OUTPUT :

The screenshot shows a mobile application interface for user registration. At the top, the status bar displays the time 5:08, a gear icon for settings, and various connectivity icons (Bluetooth, cellular signal, Wi-Fi, and a 65% battery level). The main heading is "Register" in a large, bold, black font. Below the heading, there are four input fields, each with a label above it: "Enter your mobile number" (containing "p1756825785" and a checkmark icon), "Enter your email" (containing "sazzad@gmail.com"), "Enter your password" (containing ten asterisks and an eye icon), and "Re-Enter your password" (containing ten asterisks and an eye icon). A large, black, rounded rectangular button labeled "Sign Up" is positioned below the password fields. At the bottom of the form, the text "Don't have an account? Sign in" is displayed, with "Sign in" being a link. Below this, the word "or" is centered. The very bottom of the image shows the standard Android navigation bar with three icons: a square, a circle, and a triangle.
